PROFILE

Highly motivated and detail-oriented full-stack developer with 4 years of experience managing digital infrastructure and developing robust web applications. I am proficient across the full stack, utilizing frontend technologies like HTML, CSS, JavaScript (ES6+), Angular, and React, and backend skills in Node.js. My experience includes SQL/NoSQL databases, RESTful APIs, and modern DevOps practices (AWS, Docker, Git) within Agile environments. I am actively seeking opportunities to leverage my expertise to deliver high-performance solutions and drive business growth within a forward-thinking team.

WORK EXPERIENCE

Fortizon Digital Solutions

Full stack developer

2024 - 2025

- Utilized expertise in both frontend and backend development to design, develop, and deploy scalable web applications that meet client requirements.
- I created dynamic and responsive user interfaces using HTML, CSS, JavaScript, and frameworks like React or Angular, ensuring a seamless user experience across various devices and browsers.

Vok technologies, Akure Ondo state
